

UTILITY WINCHES

Design and fabrication of versatile hydraulic driven utility winches, with flexible wire-guiding systems, and with remote control and constant tension control.

Novel design using stainless steel materials in winch frame and wireguiding system.

Winch features:

- Customised drum capacity
- Customised speed/pull
- Mooring function
- Remote control
- Plain or grooved drum
- Oil supply from 210 bar ringline
- Adjustable wireguiding mechanism
- Standardised hydraulic system
- Durable all-stainless-steel construction

Winch sizes:

2.5 Te, 150/400/800 m Ø16 mm wire

4.5 Te, 150/400/800 m Ø 20 mm wire

7.5 Te, 150/400/800 m Ø 26 mm wire

20Te and 40Te capacities also available

Matching hydraulic power units may be supplied.
